BCA Student | Frontend Dev (HTML, CSS, JS) | UI/UX (Figma) | Freelance Video Editor | Innovating AI/ML for Women's Safety | Internships at Internpe & Cognifyz

Lucknow, Uttar Pradesh, India

Summary

I'm currently pursuing my Bachelor of Computer Applications (BCA) at Amity University, Lucknow, with a strong focus on web development, UI/UX design, and applied AI/ML.

I've completed internships in web development (InternPe) and UI/UX design (Cognifyz), where I built projects like an e-commerce site and designed user interfaces using Figma. I also work as a freelance video editor using Adobe Premiere Pro and CapCut.

I've created a personal portfolio website to showcase my work and currently lead an AI/ML-based project on real-time threat detection for women's safety.

I'm passionate about blending design and development to build impactful digital solutions. Always open to learning, collaborating, and contributing to tech-driven projects that make a difference.

_____

Experience

CodeAlpha
Intern
June 2025 - Present (1 month)
Lucknow, Uttar Pradesh, India

InternPe
Intern
March 2025 - April 2025 (2 months)
Rajasthan, India

Completed a frontend web development internship focused on building responsive and user-friendly interfaces. Worked on real-world web projects using HTML, CSS, and JavaScript, while gaining hands-on experience with

modern frontend frameworks like React.js and tools like Git. Improved skills in UI/UX design, component-based architecture, and web accessibility.
